KNOWLEDGE NHLANHLA KHOZA

Desktop Support Technician | Full-Stack Developer
Phone number: 072 945 1324 | Email: nhlanhlakhoza05@gmail.com | Address: Gauteng, Germiston Buhle Park, 1428

Objective:

Highly motivated Desktop Support Technician & Full-Stack Developer with expertise in IT support, system administration, troubleshooting, and software development. Skilled in programming (Java, Python, Angular, Spring Boot), API integration, cloud platforms, and automation. Adept at resolving technical issues, optimizing system performance, and ensuring seamless IT operations. Seeking a dynamic role to leverage my skills in a fast-paced, growth-oriented environment.

Skills:

- **Programming Languages**: C++, PHP, JavaScript, Java, Python, Typescript, C#
- **Web Development**: HTML, CSS, WordPress
- **Frameworks**: Angular, Ionic, Spring Boot, Node.js, Blazor, .NET
- **Database Management**: SQL, PL/SQL, MySQL, PostgreSQL, Ms Access
- **APIs and Automated Testing**: REST APIs, Postman, Swagger
- **Version Control**: Git, GitHub
- **DevOps Tools**: Docker
- **Agile Development**: SCRUM
- **Cybersecurity**: Basic knowledge of securing web applications
- **Software Testing**: End-to-End Testing
- **Soft Skills**: Strong communication, Problem-solving, Team collaboration, Time management, Critical thinking
- **Microsoft 365 Suite**: Word, Excel, PowerPoint, Outlook, Teams, OneDrive and SharePoint
- **Operating Systems:** Windows (7/8/10/11), Linux (Ubuntu)
- **Hardware & Software Troubleshooting**: Desktop/Laptop Repairs, Peripheral Devices, Printer Configuration
- **Remote Support & Tools**: TeamViewer, AnyDesk, Microsoft Remote Desktop, VNC
- **Software Installation & Maintenance**: MS Office, Email Clients, Custom Enterprise Applications
- **System Administration**: Active Directory, User Account Management
- **Backup & Recovery:** Data Backup Solutions, System Imaging

Work Experience:

NKGWETE IT SOLUTION (Internship) – Desktop Support Technician (12 months)

- Ensured smooth IT operations by diagnosing and resolving system errors efficiently.
- Installed and configured operating systems, applications, and drivers for user devices.
- Assisted in setting up new workstations, printers, and peripheral equipment.
- Managed user accounts, passwords, and permissions to maintain secure system access.
- Performed routine maintenance, updates, and patches to ensure optimal system performance.
- Supported remote users through remote desktop tools and troubleshooting assistance.
- Documented technical issues and solutions for knowledge base and future reference.
- Assisted with data backup, recovery, and antivirus monitoring to prevent data loss.
- Monitored IT assets and maintained accurate hardware and software inventory records.
- provided basic network support, including troubleshooting connectivity and configuration issues.
- Collaborated with IT team members to improve service delivery and reduce downtime.

4IRI (Internship) – Software Engineer (6 months)

- Developed software projects by writing clean, maintainable, and efficient code.
- Built cross-platform mobile apps using Flutter.
- Integrated RESTful APIs to improve application performance and backend communication.
- Participated in code reviews and used Git for version control to maintain project integrity.
- Conducted debugging and troubleshooting to identify and resolve technical issues.
- Collaborated with frontend and backend teams to deliver cohesive, high-quality products.
- Wrote technical documentation for software components and system processes.
- Performed manual testing and created test cases to ensure software stability and reliability.
- Assisted in UI/UX improvements by optimizing interface design and responsiveness.

MFACTORY – Junior Full Stack Developer (1 Year, 1 Month)

- Develop full-stack web and mobile apps using Spring Boot, Angular, and Ionic Framework.
- Build hybrid apps with Ionic, generating APKs for Android and IPAs for iOS (Mac/iPhone).
- Maintain version control by updating software versions for every mobile App release.
- Implement Spring Security for authentication, authorization, and overall system protection.
- Develop and integrate RESTful APIs with Spring Boot for secure, scalable communication.
- Optimize backend logic and database queries to improve performance and speed.
- Collaborate with UI/UX teams to deliver user-friendly and responsive interfaces.
- Contribute to Agile sprints through planning, tracking, and code reviews.

- Troubleshoot production issues, analyze logs, and provide timely resolutions.
- Assist in deploying mobile and web applications to staging and production environments

Mpact – Junior Software Engineer (November- Current)

- Install and configure required software and development tools for internal systems.
- Develop web applications using Blazor and C# .NET, following clean architecture principles.
- Build and consume RESTful Web APIs for secure and scalable system integration
- Implement frontend and backend logic using .NET and Blazor components.
- Debug, test, and resolve application issues during development and deployment.
- Collaborate with team members to deliver stable and maintainable solutions.
- Assist with system administration tasks, including Active Directory management and user account creation, modification, and access control.
- Provide remote technical support using tools such as TeamViewer, AnyDesk, Microsoft Remote Desktop, and VNC.

Education:

Tshwane University of Technology – National Diploma in Information Technology (Software Development), 2022
Prof S.S Repinga Combined School – Grade 12 (Matric), 2017

Networking Academy

Certificate of Course Completion

KNOWLEDGE NHLANHLA KHOZA

has successfully achieved student level credential for completing the Networking Devices and Initial Configuration course.

The student was able to proficiently:

- Explain components of a hierarchical network design.
- Calculate numbers between decimal, binary, and hexadecimal systems.
- Explain how Ethernet operates in a switched network.
- Calculate an IPv4 subnetting scheme to efficiently segment a network.
- Explain how ARP enables communication on a local area network.
- Explain how DNS and DHCP services operate.
- Compare the operations of transport layer protocols in supporting end-to-end communication.
- Use the Cisco IOS and build a simple computer network using Cisco devices.

JavaScript Institute

Statement of Achievement

KNOWLEDGE NHLANHLA KHOZA

has successfully achieved student level credential for completing the JavaScript Essentials 1 course, provided by Cisco Networking Academy in collaboration with OpenEDG JavaScript Institute.

The graduate is able to proficiently:

- Understand the syntax of the core JavaScript language that allows for working with variables, operators, flow control, and functions.
- Understand the basics of the JavaScript data types system, distinguishing between primitive and complex types.
- Think algorithmically and can analyze a problem using a programmatic conceptual apparatus.
- Choose a data type adequate to the problem being solved and use suitable flow control means.
- Design, develop, and improve very simple JavaScript programs.
- Interpret and handle basic exceptions related to errors in program execution.
- Understand a programmer's work in the software development process and the role of fundamental development tools.
- Understand how a program is interpreted and executed in an actual computer environment, local or remote.
